2016 CAREER Webinar FAQ

If we register for a webinar site, can more than one person participate from that site?

Yes. You can invite as many participants as you like to gather in one location and watch the webinar.

I see there will be additional materials for the webinar. How will they be distributed?

Yes, you will be able to download additional materials, including the webinar slides and additional information. You are also welcome to share these materials with others in your organization.

There is an option to sign up for a recording of the seminar. How does that work?

If you sign up for the live webinar and also elect to buy access to the recording (for an additional $100), you will be given a user name and password through which you or anyone else in your organization can access a streaming video of the webinar until July 15, 2016. Multiple people can stream the video from multiple computers as long as they have the username and password.

If you elect to purchase access to the streaming video only (and not participate in the live webinar), the link works in the same way, but the cost is the same as the live webinar ($275).

Do we need any special equipment to view the webinar?

*You can access the **visual portion** of the webinar via a dedicated website. The **audio portion** is transmitted via telephone or VOIP. If you plan to have a large number of attendees in one room, the best way to ensure that everyone can hear is to connect the phone or computer speakers to the room's audio system. More information on computer system requirements and instructions for logging onto the webinar site will be e-mailed to you by Blue Sky Broadcast when you register. If you want more information on system requirements before registering, contact Blue Sky Broadcast customer service at 877) 925-8375 or*
http://blueskybroadcast.com/contact-us/

Will there be an opportunity to ask questions?

Yes, you will be given a phone number which you can use to ask questions during the Q&A portion of the webinar.
